

I seek refuge in GOD, from Satan the rejected  
In the Name of GOD, Most Gracious, Most Merciful

### **Why guidance from GOD is necessary?**

Prophet Mohamad was last prophet (Nabi) but not last messenger(Rasul) (33:40). In the below new difference between messenger and prophet has been cleared:

- 1-** Nabi brings or establishes a new Sharia (law, etc.) but he may or may not bring a new book. Rasul does not bring a new Sharia or book. He only confirms the previous one.
- 2-** Prophet Mohamad by role prophet established new sharia and by role of messenger delivered the Quran. Only duty of prophet mohamad (in role of messenger) was delivering the Quran but in role of prophet he must break some false rule like (33:37)
- 3-** There were many prophets among the children of Israel who didn't bring a new book and sharia. However they established new sharias and this show us difference between nabi and rasul: nabi is continuously connected to vahy to solving people problem (2:67-71; 2:247)
- 4-** Early generations needed many nabis because they were not developed enough and they needed a person who is constantly bridges the gap between them and God.( 2:67-71)
- 5-** Nabi is given something new (for example a new law) and for this reason God uses the phrase "ma otiya" , "ما اوتي" (was given) in 2:136.
- 6-** Nabi can marry more women and his wife is named as believers's mothers but this does not apply to rasul

7- All of us know that Iron had had from before history. and we don't know history of using Iron. First Human have used Iron in their life. discovering and using Iron wasn't in capability of first human at that time. The Question arised here is: How they have used Iron for their life's meanwhile they hadn't capablity of discovering it at that time? God almighty discovered Iron by his Messnegers . he showed the first people using Iron by help of his messengers. Actually he revealed to them the using of iron. but human could discover the iron without messenger later. The help of God was step for their life's.

[٥٧:٢٥] لقد ارسلنا رسلنا بالبينت وانزلنا معهم الكتب والميزان ليقوم الناس بالقسط وانزلنا الحديد فيه باس شديد ومنفع للناس وليعلم الله من ينصره ورسله بالغيب ان الله قوي عزيز

[57:25] We sent our messengers supported by clear proofs, and we sent down to them the scripture and the law, that the people may uphold justice. And we sent down the iron, wherein there is strength, and many benefits for the people. All this in order for GOD to distinguish those who would support Him and His messengers, on faith. GOD is Powerful, Almighty.

[٧:٢٦] ييني اءادم قد انزلنا عليكم لباسا يوري سوءتكم وريشا ولباس التقوى ذلك خير ذلك من آيات الله لعلهم يذكرون

[٧:٢٦] O children of Adam, we have provided you with garments to cover your bodies, as well as for luxury. But the best garment is the garment of righteousness. These are some of GOD's signs, that they may take heed.

Finally nabi usually receives what human being cannot achieve on his own. For example producing Quran is not possible by humans. If was not nabi we would never have kown about the people of the cave. But what is given to rasul can be achieved without the revelation since they are embedded in our instinct (for example the message of worshipping God alone.) 57:25 mentions sending down the scripture and law to rasuls but it immediately mentions sending down **the iron**. It shows similarity of these two "sending down". Humans could discover the iron by themselves without help of rasuls. but it would only have **taken more time**. In the same way the knowledge that rasul brings could be achieved without him, it only takes more time. messengers or rasuls speed our lifes. They give speed to our understanding. for such reason we need messengers.

Quran doesn't need to hadith, it is complete book and full detailed book. We don't need to hadith. Quran is book of God and for this reason it doesn't need to messenger. But We (as a human) need to messenger. "Quran without hadith" but not "Quran without messengers". Messengers aren't hadith.

We as a human need to Guidance. Guidance in arabic means Hoda "هدي" and Almahdi is from Hoda.we need guidance from God . Gv of Hoda (هدي) is **19**.

Verse 57:25 is about necessity of Hoda from God.because Iron was exists in earth but if wasn't guidance of God, we couldn't use it at those date. In the same way the guidance that God send us through **Human messengers** could be achieved without him, it only takes many more time and this show us that messengers are Most Useful for us as sending down iron is The Most Useful Metal.if we don't listen to messengers of God , we damage ourself.God doesn't need us we need to his Human messengers.

Sura 57(**19**\*3) has 29 verses. The verse 57:25 is very important.

Now we study this verse:

We know that God in night of destiny reveal to human many things and those things that in that night revealed to us is very important.the matters that God reveal in this night speed up our life. For such reason God in 97:3 say that The Night of Destiny is better than a thousand months.

[٩٧:٣] ليلة القدر خير من الف شهر

[٩٧:٣]The Night of Destiny is better than a thousand months.

**1000 month=1000\*30 days=30000 days=approximately 82 years**

it show us that the guidance from God in night of destiny is more speed 82 years.if we try **82** years continusely day and night then maybe we achieve what that God reveal it in one night .verse 57:25 (57+25= **82**) show us that Human messengers are necessary for us.

The matter has said to me from God is : God will send **666** person untill day of resurrection for speed our life. These men are Almahdi. these matter was said in 6/6/2006 (**6/6/6**). (I don't accept the mahdi theory in hadith books because it is illusions all).MAHDI simply are messengers of GOD (not prophets) and count of them is 666 untill day of resurrection.

GV of verse 97:3 is 1926 and GV of verse 57:25 is 6205

**1926+6205+666 Men=19\*463**

57:25 is about usefulness of human messengers guidance from God.  
digital sum of this verse is **19** (5+7+2+5). this matter was said by me and it is interesting that this verse has **14** Noons. Noon is 14<sup>th</sup> letter in abjad system and is 14<sup>th</sup> letter in initial letters too and this verse has **7** Waws too.

[٥٧:٢٥] لقد أرسلنا رسلنا بالبينات وأنزلنا معهم الكتب والميزان ليقوم الناس بالقسط وأنزلنا الحديد فيه بأس شديد ومنفع للناس وليعلم الله من ينصره ورسله بالغيب إن الله قوي عزيز
